Safety ■ Style ■ Comfort

A large, white, modern-style motorcycle helmet is shown from a side-front angle. The helmet has a clear visor and a dark, integrated sun visor. Inside the helmet, a motorcycle rider wearing a white helmet and riding a black motorcycle is visible, looking towards the camera. The background is a blurred landscape with warm sunset colors. In the bottom right corner of the advertisement, there is a black rectangular area containing the text "Get Consumed in" above the word "Passion" in a large, flowing red cursive font.

SAI GROUP

Possibilities Unlimited

Shree Amba Industries (SAI Group) is a young, vibrant and a fast growing auto-component manufacturer in Indian Sub-continent. Within a short time span, we have established strong market presence - domestically as well as internationally. Our strategy is to offer our customers, a robust product portfolio across categories. Our focused approach, cost competitiveness and commitment to quality have made SAI products the best in the market !

SAI is a leading OEM manufacturer and development partner to the automotive industry. Our state-of-art technologies provide solutions for increased structural performance, added comfort and improved production processes. As a specialty company in the auto-ancillary industry, we concentrate on our core competencies to provide products of immense value to our customers.

OUR VISION

To emerge as a globally recognized and most preferred automotive solution provider to OE and after-market segments in India and overseas.

OUR MISSION

To create an organization that incubates and promotes innovation for offering a broad range of quality products and services in the market. We strongly believe in building long lasting associations with our partners.

KEY MILESTONES

2008-09

Laid the foundation of SAI Group by venturing out into production of ABS parts for Indian two-wheeler industry

2012-13

Ventured into manufacturing of Helmets and Pannier Boxes

2014-15

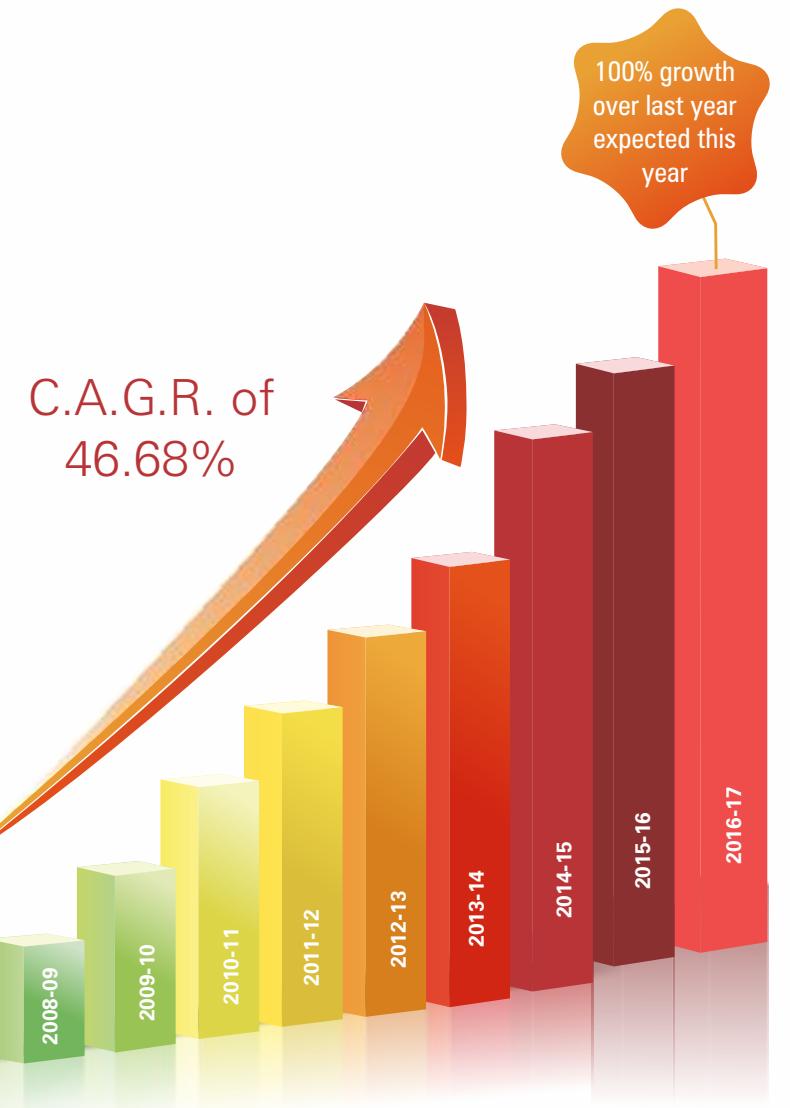

- Introduced two wheeler Air and Oil filters
- Added a wide variety of Blinkers and Mirrors to our product portfolio
- Established Plant II – a second manufacturing unit for Aluminium and Zinc pressure Die-Casting products

2015-16

- Introduced Two Wheeler Friction Free Control Cables
- Helmet production capacity increased
- Initiated the process of setting up a third manufacturing facility for Helmets

2016-17

- Head lights for various two wheeler applications

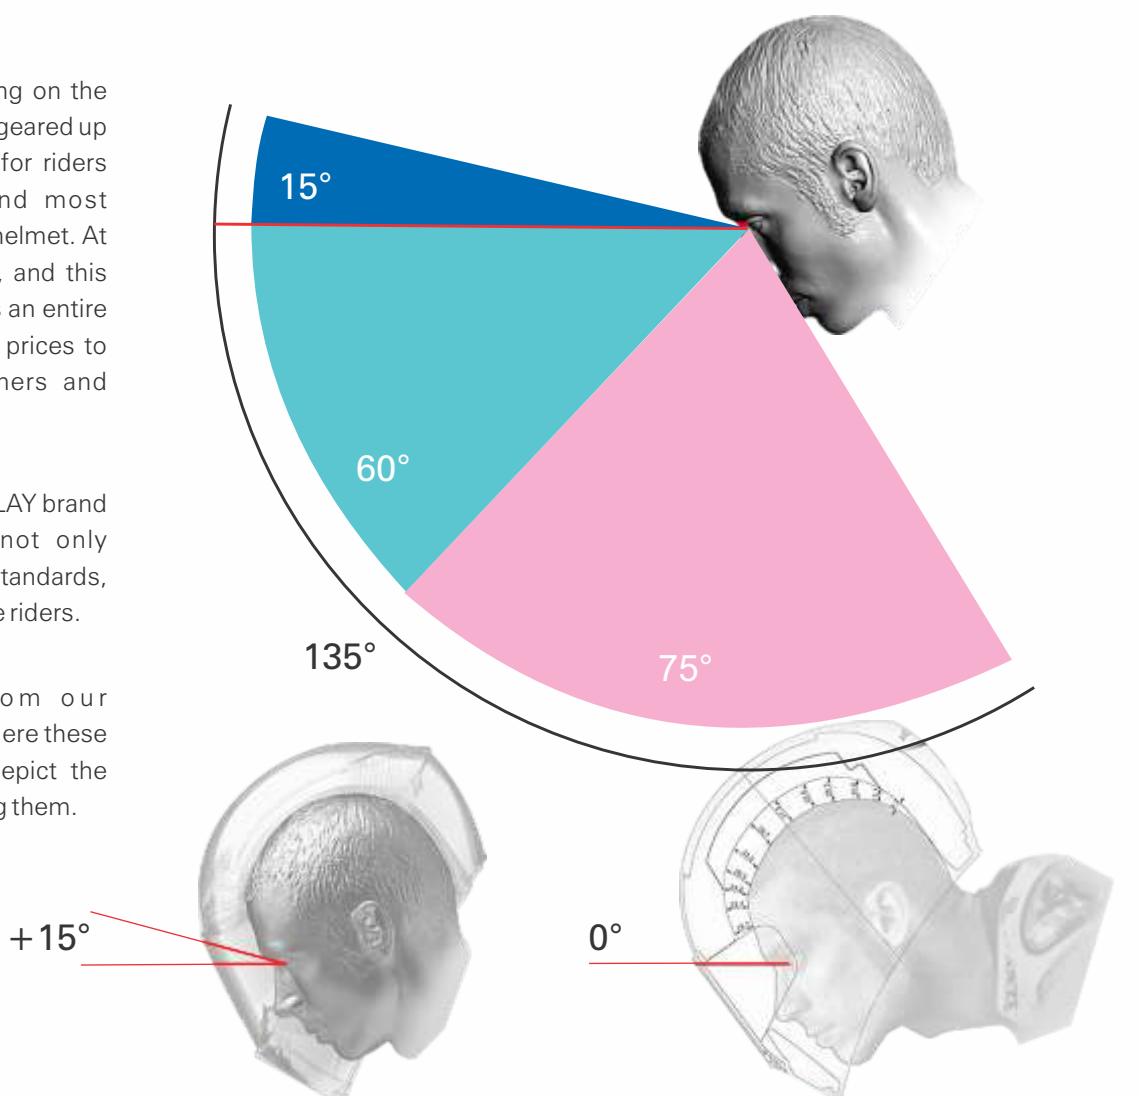

Safety ■ Style ■ Comfort

The world over, with accident rates being on the rise, motorcycle laws have progressively geared up to ensure safety for riders. And safety for riders begin with- training, experience and most importantly, wearing a quality approved helmet. At SAI, we care deeply for our customers, and this situation forced us to think...The result is an entire range of quality helmets at competitive prices to suit all - daily riders, racers, beginners and experienced bikers alike !

Our Helmets are supplied under the REPLAY brand to create a loyal, niche market – not only conforming to various rigorous testing standards, but also providing comfort and style to the riders.

The accompanying images from our manufacturing unit in Roorkee – India, where these helmets are currently manufactured, depict the care and concern that goes into producing them.
